

ACAP SUMMATIVE

The ACAP Summative is a computer-based, criterion-referenced assessment, designed to measure student progress on the Alabama Courses of Study Standards. The assessment is administered to students in Grades 2-8, once a year, in the spring, and includes the content areas of English language arts, math, and science (Grades 4, 6, and 8 only). The ACAP Summative is constructed to meet rigorous technical criteria and to ensure that all students have access to the test contents via principles of universal design and appropriate accommodations.

ACAP PRACTICE

The ACAP Practice is a pre-assessment designed to mimic the format and content of the Alabama Comprehensive Assessment Program (ACAP), a standardized test used to evaluate student achievement in English Language Arts (ELA), Mathematics, and Science across various grade levels in Alabama; essentially, it's a way for students to practice taking the actual ACAP test before the real assessment day to familiarize themselves with the question types and test structure.

iREADY

i-Ready is an online program for reading and/or mathematics that will help your student's teacher(s) determine your student's needs, personalize their learning, and monitor progress throughout the school year. i-Ready allows your teacher(s) to meet your student exactly where they are and provides data to increase your student's learning gains. i-Ready consists of two parts: Diagnostic and Personalized Instruction.

NWEA MAP GROWTH

MAP Growth is a computer-based test that measures a student's achievement and growth in K-12 math, reading, language usage, and science. It's designed to help educators understand a student's academic journey, their strengths and areas for improvement, and how they're growing over time.
